

November 7, 2024

7:30	8:30	Welcome Breakfast	
8:30	8:40	Introductory Remarks	Joo Ha Hwang, Stanford University
8:40	8:50	Welcome to Stanford from the Dean	Lloyd Minor, Stanford University
8:50	9:00	Personal reflections on Gastric Cancer	TBD
Day 1, Session 1: Gastric Cancer – Why should we CARE?			Moderators: Chin Hur, Columbia University; Hwoon-yong Jung, Asan Medical Center
9:00	9:15	Incidence of gastric cancer – globally and in the US	Shailja Shah, UCSD/San Diego VA
9:15	9:30	Global Efforts for the Prevention of Gastric Cancer	Jin Young Park, IARC, WHO
9:30	9:45	Efficacy of Gastric Cancer Screening Programs in Asia	Il Ju Choi, National Cancer Center, Korea
9:45	10:00	Endoscopic resection and outcomes	Naohisa Yahigi, Keio University
10:00	10:15	Panel Discussion	
10:15	10:30	Break	
Day 1, Session 2: Gastric Cancer – How does it develop?			Moderators: Scott Kuwada, University of Hawaii, Dan Li, Kaiser Permanente
10:30	10:45	<i>H. pylori</i> : a historical perspective on its association with cancer	Julie Parsonnet, Stanford University
10:45	11:00	Gastric intestinal metaplasia as a precursor to cancer	Robert Huang, Stanford University
11:00	11:15	Endoscopic screening for gastric precancerous lesions	Fabian Emura, University of Miami
11:15	11:30	Panel Discussion	
Day 1, Session 3: Improving outcomes in the US – The need for primary and secondary prevention of Gastric Cancer			Moderators: Meira Epplein, Duke University; Robert Huang, Stanford University
11:30	11:45	Primary prevention of gastric cancer – treating <i>h pylori</i>	Paul Moayyedi, McMaster University
11:45	12:00	Secondary prevention - Gastric cancer screening in the US – Who and how?	Joo Ha Hwang, Stanford University
12:00	12:15	Gastric cancer prevention: the Kaiser experience	Daniel Li, Kaiser Permanente
12:15	12:30	Panel Discussion	
12:30	1:30	Lunch Break	
Day 1, Session 4: Societal Guidelines			Moderators: John Inadomi, University of Utah; Joo Ha Hwang, Stanford University
1:30	1:50	European guidelines on precancerous lesions	Ernst J. Kuipers, Erasmus MC University Medical Center
1:50	2:10	AGA Guidance on screening for gastric cancer and surveillance of precancerous lesions	Andrew Wang, University of Virginia
2:10	2:40	ACG Guidance on gastric precancerous lesions, EGD quality, and <i>H. pylori</i>	Doug Morgan, University of Alabama - Birmingham
2:40	3:00	Panel Discussion	
3:00	3:30	Break	
Day 1, Session 5: Advancing health policy for the prevention of gastric cancer in the US – A panel discussion			Moderators: Kathy Ko Chin, Jasper Inclusion Advisors; Yanghee Woo, City of Hope
3:30	5:00	Panel 1: Federal Policy Updates Panel 2: Private Policy Advancements: Kaiser Permanente Advancements in Clinical Policies and Protocols	Final speakers TBD
5:00	6:00	Wine and Cheese Reception	
6:30	8:30	Dinner @ Tai Pan	

November 8, 2024

8:00	8:30	Breakfast	
8:30	8:40	Introductions	Robert Huang, Stanford University
Day 2, Scientific Session 1			Moderators: Robert Huang, Stanford University
8:40	9:00	CagA as a predictor of gastric cancer risk	Meira Epplein, Duke University
9:00	9:20	Early detection and interception of diffuse and intestinal gastric cancer	Andrew Chan, Harvard University
9:20	9:40	Preliminary experience with community-based EGD screening	Haejin In, Rutgers University
9:40	10:00	Community based testing and treatment for H. pylori	Shria Kumar, University of Miami
10:00	10:15	Panel discussion	
10:15	10:30	Break	
Day 2, Scientific Session 2			
10:30	10:50	Gastric cancer CISNET modeling: an update	Chin Hur, Columbia University
10:50	11:10	Gastric cancer among the US-born and foreign-born immigrants in the US.	Eunjung Lee, University of Southern California
11:10	11:30	Using artificial intelligence to improve the recognition of gastric neoplasia	Yutaka Tomizawa, University of Washington
11:30	11:45	The Linqu H. pylori eradication trial	Markus Gerhard, Technical University of Munich
11:45	12:00	Panel discussion	
12:00	12:40	Lunch break	
Day 2, Session 3			
12:40	1:00	The ECHOS cohort	Arnoldo Riquelme, Pontificia Universidad Catolica de Chile
1:00	1:20	Insights from the Singaporean GCEP programme	Khay Guan Yeoh, National University of Singapore
1:20	1:40	Histologic interpretation of gastric intestinal metaplasia	Blanca Piazuelo, Vanderbilt University
1:40	2:00	Biomarker for Gastric Cancer: where are we and where are we going?	Constanza Camargo, National Cancer Institute
2:00	2:15	Panel discussion	
2:15	2:30	Break	
Day 2, Closing Session – Priorities and Future Directions – A Panel Discussion			Moderators: Joo Ha Hwang, Stanford University; Robert Huang, Stanford University
2:30	3:30		Panelists: Asad Umar, National Cancer Institute, Matthew Young, National Cancer Institute
3:30	3:45	Closing remarks, group photos
